

## SPLIT TYPE PIN DRIVE MASTER BUSHING

**Model: ABMB2750-PSP-3**

Autobahn Industries manufactures Split Type Pin Drive Master Bushings designed for 27.1/2" Rotary Tables, adhering strictly to the latest API-7K specifications. We hold a valid API-7K Monogram for our Master Bushings. These Master Bushings are compatible with Insert Bowls No. 1, 2, and 3, allowing them to handle various sizes of tubulars, including Drill Collars, Tubing, and Casing ranging from 2.3/8" to 13.3/8".

The advantages of the Split Type Pin Drive Master Bushing include:

1. The Master Bushing can be easily removed to allow large-diameter bits and pipe connections to pass through.
2. The BOP (Blowout Preventer) can be easily lifted by removing the Master Bushing from the Rotary Table.
3. The Master Bushing can be securely locked into the Rotary Table, with locks that firmly hold the Insert Bowls in place.

The following are the recommended accessories for this Master Bushing:

1. Bit Breaker Adapter Plate.
2. Lifting sling.
3. Insert Bowl No.1,2 & 3
